

Tracking Fluency in multiplication

Professional Development
Accredited Lead

National Centre
for Excellence in the
Teaching of Mathematics

The 99 Club is designed to support the teachers in tracking fluency in multiplication. In order to encourage the children to learn their times tables, and to increase the speed of recall, the children can earn the following badges. The 99 club is planning in line with the National Curriculum. Understanding the concept of multiplication is also an important factor and is taught during maths lessons.

Club Number:	NC Objective:	Number of calculations:	To be complete during:
Circle	Recall of x 2, 5, 10	22	Year 3
Angle	Recall of x 3, 4, 8	22	
Triangle	Recall of x 2, 5, 10, 3, 4, 8 & division facts	22	
Quadrilateral	Recall of x 6, 7, 9	33	Year 4
Pentagon	Recall of x 6, 9, 7 & division facts	33	
Hexagon	Speed of recall – multiplication & division facts	40	
Heptagon	Speed of recall – multiplication & division	45	Year 5
Octagon	Speed of recall – multiplication & division	50	
Nonagon	Speed of recall – multiplication & division	60	
Decagon	Speed of recall – multiplication & division	70	Year 6
Hendecagon	Speed of recall – multiplication & division	80	
Dodecagon	Speed of recall – multiplication and division	90
