Vocabulary explained

Batting: A skill which allows the bat to contact the ball.

Throwing: A technique to field the ball to the correct position at the correct pace and direction.

Catching: The ability to get in the correct position for the batter to hit (low/high catching technique).

Bowling: A technique to deliver the ball in the correct position for the batter to hit.

Match play: A skill used to understand the basics of the game, the scoring, the rules and the player's positions.

Posts: There are four posts the batter must run around to score a point.

Professional Rounders

The national rounders association.

Rules of rounders

1. Rounders games are played between two teams. Each team has a maximum of 15 players and a minimum of 6 players. No more than 9 players may be on the field at any one time.
2. One team bats while the other team fields and bowls.
3. The bowler bowls the ball to the batter who hits the ball forward on the Rounders Pitch. The batter then runs to as many posts as possible before the fielders return the ball to touch the post the batter is heading for.
4. If the batter reaches the 2nd or 3rd post in one hit, the batting team scores $\frac{1}{2}$ a Rounder. If the batter reaches 4th post in one hit, the batting team scores a Rounder.
5. Games are usually played over 2 innings with the aim of the game to score the most Rounders.
